Mitsubishi Electric Corporation is an independent company like other Mitsubishi companies, and is separately owned, managed, and operated. With the exception of other companies in the Mitsubishi Electric Group, it bears no legal affiliation with other companies that have the word "Mitsubishi" in their names.
About “Mitsubishi” — Mitsubishi Companies

- Mitsubishi companies share a founding management philosophy:
  - Corporate Responsibility to Society
  - Integrity and Fairness
  - Global Understanding through Business

- 37 member companies of the Mitsubishi Public Affairs Committee support a variety of philanthropic activities together

The companies shown above represent some of the 37 member companies of the Mitsubishi Public Affairs Committee.
Corporate Mission

The Mitsubishi Electric Group will continually improve its technologies and services by applying creativity to all aspects of its business. By doing so, we enhance the quality of life in our society. To this end, all members of the Group will pursue the following Seven Guiding Principles.

Seven Guiding Principles

Trust, Quality, Technology, Citizenship,
Ethics and Compliance, Environment, and Growth

Corporate Statement

The Mitsubishi Electric Group's corporate statement, "Changes for the Better," represents our goal and attitude to always strive to achieve "something better," as we continue to change and grow.
Through a broad range of philanthropic and volunteer activities in Japan and around the world, the Mitsubishi Electric Group is in touch with the unique needs of local communities and carries out various initiatives to help make a difference.

Support for local events as part of ‘Special Olympics’ which is recognized by the IOC as an event for people with intellectual disabilities in Italy.

Many employees of Mitsubishi Electric companies in the Asia region enjoy tree planting activities with local people in each community.

Science workshops and presentations at schools and local events teach children how science can be interesting in Japan.

Development and innovation are the key drivers of Mitsubishi Electric’s Factory Automation Division.

We have an experience of over 75 years in the industrial market and the skills we have acquired during these decades, together with our extensive range of products, allow us to work with customers and create custom and complete solutions that meet all application requirements.

Transparency and a 360-degree true integration among PLCs (Programmable Logic Controllers), Motion Control, Robots, CNCs (Computerized Numerical Controllers) and HMIs (Human- Machine Interfaces) is Mitsubishi Electric’s proposal for automation solutions that are capable to maximize productivity, reliability and efficiency.
