## Search Committee Physical Sciences

In order to observe the different areas as comprehensively as possible in the search for suitable awardees and to strengthen the European component of the prize at the same time, the Körber Foundation set up an international Search Committee in the field of physical sciences. Renowned scientists from all over Europe who represent the different scientific sectors have the task of finding the best European scientists with the most innovative research projects and then of suggesting them to the Trustee Committee for decision-making. The Search Committee Physical Sciences is composed as follows:

**Prof. Dr. Sir John O'Reilly (Chair)**

Vice-Chancellor of Cranfield University, Cranfield

▶ [Brief Vita](#)

**Prof. Dr. Alessandro De Luca**

Dipartimento di Informatica e Sistemistica, Università di Roma
